\$4.00

Stampin' Dimensionals
[104430]
\$4.00

Multipurpose Liquid Glue
[110755]
\$4.00

Project Recipe:

1. Cut the inside Whisper White cs panel and fold in half.

2. Flatten the panel out and make a mark at 1 1/2" on both sides of the center.

3. Then turn the refolded panel and make a mark at 2 1/2" down the folded side.

4. Unfold the inside panel so it lays flat and then use your paper trimmer to score from mark to mark on each side creating the triangle fold in.

5. Use the bone folder to crease the score lines of the triangle fold in on the inside panel.

6. Then fold the panel in half and make sure everything lines up and use your bone folder to crease the fold. Then before you add it inside the card base - stamp the sentiments from the Snowflake Wishes stamp set in Coastal Cabana ink on both sides of the Whisper White cs inside panel. Then add Tear and Tape to the top back edge of both sides of the inside panel, apply glue to the other panel edges EXCEPT the folded center and add the panel to the inside of the Coastal Cabana card base.

7. Die cut ten Coastal Cabana cs snowflakes (3 different sizes and snip down the smallest snowflake so they fit on the pop out triangle piece) with the So Many Snowflakes Dies. Add snowflakes with Mini Stampin' Dimensionals, glue dots, and glue (for the largest snowflake) to the inside panel. Just be sure that the snowflakes on the pop out fold don't catch on each other when you close the card. Cut and use glue to add the DSP strips to the bottom of both sides of the inside panel.

8. To create the front panel of the card base cut a Snowflake Splendor DSP panel and glue it to the front. Die cut a Coastal Cabana cs large label and a Snowflake Splendor DSP small label with the Halloween Magic Dies. Glue the DSP label to the Coastal Cabana cs label. Cut a piece of Snowflake Splendor ribbon (about 18") and use a glue dot to attach the ribbon to the center of the card front or if you want the ribbon to move just lay it over the center of the card front. Then use Stampin' Dimensionals to add the labels to the card front - be sure not to place the dimensionals in the center where the ribbon will be thread through.

9. Die cut a Whisper White cs sentiment (wishes) with the Well Written dies and use glue to add it to the center of the DSP label. Use glue and glue dots to add die cut Coastal Cabana cs snowflakes to the labels. Add Artistry Blooms sequins to the label & card front for sparkle and don't forget to tie your ribbon to close your card with bow.

10. I also stamped the sentiment from the Snowflake Splendor stamp set in Coastal Cabana ink and added a die cut snowflake on the back of the card to pull the theme through.
