Project Recipe:

1. Start with a Soft Suede cs card base. Cut & score a Soft Suede cs card front base panel and then dry emboss it with the Subtle 3D embossing folder. Glue the larger panel piece of the embossed Soft Suede cs panel to the front of the card base and use your bone folder to crease the front two score lines so the card will stand up.
2. Cut the three DSP panels and glue them to the card front base panels. Fussy cut (or die cut flowers with the Poinsettia Dies) three flowers from the Poinsettia Place DSP. Die cut out five berry sprigs (or fussy cut) from the Poinsettia Place DSP and five Vellum cs sprigs with the Poinsettia Place dies.
3. Add the Stampin' Dimensionals to the backs of the flowers using them as a guide to glue down the DSP berry sprigs and Vellum cs sprigs and then attach the flowers overlapping the sprigs on the card fronts. Add three (for each flower) looped Old Olive ribbon (from the All The Trimmings ribbon combo) with glue dots tucked under the flowers. Add Wink of Stella to the flowers and the Vellum cs sprigs for sparkle.
4. Cut a Thick Whisper White cs sentiment panel and stamp the sentiment from the Poinsettia Petals stamp set in Real Red ink. Use Stampin' Dimensionals to add the sentiment panel to the bottom center of the card front panel overlapping the flower.
5. Don't forget to add a Thick Whisper White cs inside panel to write your message. Stamp the sentiment from the Poinsettia Place stamp set in Real Red ink. I added strips of DSP to the inside and the back of the card. I also added a fussy cut flower & sprigs to the inside panel to pull the theme through.
