Project Recipe:

1. Start with a Misty Moonlight cs card base. Cut a Feels Like Frost DSP panel and glue it to the card base. Cut the Whisper White cs sentiment panel and the Misty Moonlight cs sentiment layer panel. Stamp the sentiment from the Tag Buffet stamp set in Memento Black ink on the Whisper White cs panel. Glue the stamped Whisper White cs panel to the Misty Moonlight cs panel. Glue the sentiment panels to the card front (place them where you want depending on the piece of DSP you use).

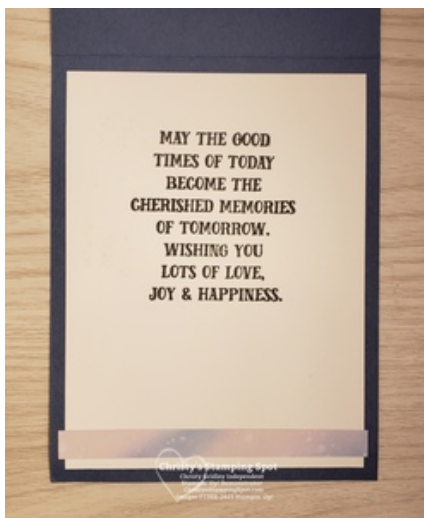

2. Stamp the ornament on Whisper White cs in Memento Black ink. Color the ornament with the Stampin' Blends and add Wink of Stella for sparkle. Fussy cut out the ornament with paper snips.

3. Stamp the ornament image on coordinating Feels Like Frost DSP and fussy cut out the middle of the ornament. Glue the fussy cut middle DSP to the colored Whisper White cs ornament. Use Stampin' Dimensionals to add the ornament to the card front overlapping the sentiment panels.

4. Tie a small bow with the Misty Moonlight/ Silver Baker's Twine (from the Flowers For Every Season Combo Pack). Use a glue dot to attach the bow to top of the ornament. Add rhinestones to the ornament for sparkle.

5. Don't forget to add a Whisper White cs inside panel to write your message. I stamped the sentiment from the Tag Buffet stamp set and added a strip of DSP to the inside and back of the card to pull the theme through.
