Project Recipe:

1. Start with a Poppy Parade cs card base. Cut the Flower & Field DSP panels and glue them to the card front (glue the top panel on first and then overlap with the bottom panel or use a template to create the panel and then glue

down). Cut a Poppy Parade cs strip and glue it across the transition.

2. Die cut a Basic White cs stitched label with the Stitched So Sweetly Dies. Stamp the sentiment with the So Sentimental stamp set in Memento Black ink on the stitched label.
3. Use Stampin' Dimensionals to adhere the stamped stitched label to the center of the card front overlapping the Poppy Parade cs strip. Add white Resin Hearts to the card front.
4. Don't forget to add a Basic White cs inside panel to write your message. I stamped the sentiment from the Happy Thoughts stamp set in Memento Black ink and added a strip of DSP to the inside and back of the card to pull the theme through.
