Project Recipe:

1. Start with the Garden Green cs card base. Cut an Early Espresso cs panel & a Painted Christmas DSP panel and glue them to the card base. Die cut a Garden Green cs base foliage and a Soft Succulent cs foliage overlay with the Christmas Pinecone dies. Use glue to add them to the card front.
2. Die cut Early Espresso cs pinecone bases & overlays with the Christmas Pinecone dies and glue them together. Create clusters with the pinecones and Garden Green cs base foliage pieces (sniped apart with paper snips) using glue and glue dots on the card front.
3. Die cut a Basic White cs sentiment label with the Seasonal Labels dies. Stamp the sentiment from the Christmas to Remember stamp set in Early Espresso ink on the label. Use Stampin' Dimensionals to add the sentiment label to the card front. Add Garden Gems to the card front for extra sparkle.
4. Don't forget to add a Basic White cs inside panel to write your message. I stamped the sentiment from the Christmas to Remember stamp set in Early Espresso ink. I also added a strip of DSP to the inside and back of the card to pull the theme through.
