Project Recipe:

1. Start with a Polished Pink cs card base. Cut a Fresh Freesia cs panel. On a sheet of Shimmery White cs stamp the snowflake images from the Snowflake Wishes stamp set in Polished Pink ink, Fresh Freesia ink, and Flirty Flamingo ink on the Shimmery White cardstock and then cut to size to create a DSP panel. Glue the stamped panel to the Fresh Freesia cs panel and then glue the panels to the card base.
2. Cut a Shimmery White cs sentiment panel and stamp the sentiment from the Snowflake Wishes stamp set in Polished Pink ink on the sentiment panel. Add color to the edges of the sentiment panel. Add Stampin' Seal to the back of the sentiment panel to loop a piece of White Baker's Twine (from the Baker's Twine Essentials pack). Use Stampin' Dimensionals to add the sentiment panel to the card front. Add 2021-2023 In Color Jewels to the card front.
3. Don't forget to add an inside panel to write your message. Stamp the sentiment & the snowflakes from the Snowflake Wishes stamp set in Polished Pink ink and add a strip of the created DSP to the inside and back of the card to pull the theme through.
