Project Recipe:

1. Start with a Real Red cardstock card base. Score the card base front from top right corner to the bottom left corner. Cut a Smoky Slate cs panel & strip, a Basic White cs panel, and a All Together Designer Series Paper panel. Stamp the Viking boat image multiple times on the Basic White cs panel in Memento Black ink. Color one boat on the top left with Stampin' Blends. Color the hearts on the DSP panel with light Smoky Slate Stampin' Blend. Then build your front panel gluing the DSP panel to the stamped Basic White cs panel and then both to the Smoky Slate cs panel. Then glue the Smoky Slate cs strip across the transition of the DSP and stamped Basic White cs panel. Add adhesive to the bottom of the panel and adhesive to the card front just below the score mark & middle of the card front to attach the panel to the card front. Do not put adhesive on the top of either the panel or card front or around the bottom edges of the card front.

2. Die cut a Basic White cs label with the Tasteful Labels dies. Stamp the sentiment from the Brave Vikings stamp set in Memento Black ink on the label. Glue the sentiment label to the card front on left side overlapping the Smoky Slate cs strip and DSP panel.

3. Punch out a Basic White cs white heart and a Real Red cs scalloped heart with the Heart Punch Pack. Stamp the chap Viking on the Basic White cs heart in Memento Black ink and color him with Stampin' Blends and add Wink of Stella to the sword for extra sparkle. Glue the stamped & colored Basic White cs heart to the Real Red cs scalloped heart and then use Stampin' Dimensionals to add them to the right side of the card front.

4. Add a Basic White cs inside panel to write your message. I stamped the sentiment from the Love & Happiness stamp set in Memento Black ink and added a strip of DSP to the inside and back of the card to pull the theme through. And don't forget

to add the die cut Real Red cs stitched heart from with the Bouquet of Love Hybrid Embossing Folder (& dies) with Stampin' Dimensionals to the left side of the inside panel to create the stop to create the easel.
